

Congratulations to the latest round of winners from our Save to Win Program

If you are a Crane Credit Union member, you can participate. The Save to Win program requires that participants open a special 12-month Save to Win share certificate. The minimum amount to open the certificate is just \$25. Once the share certificate is opened, you'll be automatically entered to win monthly and quarterly prizes.

The Save to Win account gives you the chance to win monthly and quarterly prizes from two different prize pools. The state-level prize pool will feature monthly and quarterly prizes ranging from \$50 to \$1,000 and a national prize pool will offer quarterly prizes from \$25 to \$5,000. Crane Credit Union will also distribute \$500 in prizes each month to its members. Credit union members just need to save their money to qualify. Savers earn entries for every \$25 they save in a given month, with a maximum of ten entries per month.

Visit your favorite branch location, call us at 800-692-3274, or www.cranecu.org to get started.

Equifax Data Breach What You Need to Know

Credit reporting agency Equifax has disclosed a data breach that potentially affects 143 million consumers. The information accessed primarily includes names, Social Security numbers, birth dates, addresses and driver's license numbers. Additionally, credit card numbers for approximately 209,000 U.S. consumers and dispute documents with personal identifying information for approximately 182,000 U.S. consumers were accessed. Equifax will send direct mail notices to those whose credit cards or dispute documents were impacted.

Equifax has setup a website (www.equifaxsecurity2017.com) where consumers can check to see if their information was compromised as well as sign up for credit monitoring and identity theft protection. The offering called TrustedID Premier includes monitoring of 3 credit bureaus (Equifax, TransUnion and Experian), copies of Equifax credit reports, the ability to freeze and unfreeze Equifax credit reports, identity theft insurance, and internet scanning for Social Security numbers- all complimentary to U.S. consumers for one year.

Other security measures consumers can take include routinely checking banking account statements and credit card statements for unauthorized transactions, setting up alerts on credits cards and deposit accounts triggered by balance amounts and size of transactions, and continue to check credit reports at annualcreditreport.com to ensure loans and credit cards on these reports are accurate. You can order a free report from each of the 3 credit reporting agencies once a year. For additional questions concerning the breach, contact the Equifax call center at 866-447-7559. For more information about identity theft and ways to protect yourself, visit the Federal Trade Commission's website www.identitytheft.gov.

Rethinking Diversification

Exploring new possibilities for risk management

Join us for an Education Seminar.

In today's volatile market, retirement savers face new challenges. But there are also new ways to manage investment risk. Join us for an informational seminar and learn how to go beyond diversification to help achieve your goals.

This session will help you think about your retirement savings plan, and learn answers to questions like:

- What is traditional portfolio diversification?
- How has the investment landscape changed?
- How can you achieve your goals with the least amount of risk?
- How can new annuity options help you rethink diversification?
